# Safety data sheet according to Regulation (EC) No 1907/2006, Annex II

# SECTION 1: Identification of the substance/mixture and of the company/undertaking

**1.1 Product identifier** 

(GB)

# Mavrik 240 g/l tau-Fluvalinat CAS 102851-06-9

# **1.2** Relevant identified uses of the substance or mixture and uses advised against Relevant identified uses of the substance or mixture:

Insecticide Uses advised against:

Not applicable

# 1.3 Details of the supplier of the safety data sheet

Adama Agricultural Solutions UK Ltd, Unit 15, Thatcham Business Village Colthrop Way, Thatcham Berkshire RG19 4LW, UK Telephone: 01635 860555, Fax: 01635 861555 ukenguiries@adama.com

Qualified person's e-mail address: info@chemical-check.de, k.schnurbusch@chemical-check.de Please DO NOT use for requesting Safety Data Sheets.

# 1.4 Emergency telephone

**Emergency information services / official advisory body:** National Chemical Emergency Centre (UK): 01865 407333 (24 hours) **Telephone number of the company in case of emergencies:** Tel.: --

# **SECTION 2: Hazards identification**

#### 2.1 Classification of the substance or mixture 2.1.1 Classification according to Regulation (EC) 1272/2008 (CLP)

Hazard classHazard categoryAquatic Acute1Aquatic Chronic1

Hazard statement H400-Very toxic to aquatic life. H410-Very toxic to aquatic life with long lasting effects.

# 2.1.2 Classification according to Directives 67/548/EEC and 1999/45/EC (including amendments)

N, Dangerous for the environment, R50/53

#### Page 2 of 21

### Mavrik

# 2.2 Label elements

2.2.1 Labeling according to Regulation (EC) 1272/2008 (CLP)

Warning

H410-Very toxic to aquatic life with long lasting effects.

P102-Keep out of reach of children. P501-Dispose of contents/container to special waste collection point.

EUH401-To avoid risks to human health and the environment, comply with the instructions for use.

SP 1 Do not contaminate water with the product or its container (Do not clean application equipment near surface water/Avoid contamination via drains from farmyards and roads).

#### 2.3 Other hazards

The mixture does not contain any vPvB substance (vPvB = very persistent, very bioaccumulative) or is not included under XIII of the regulation (EC) 1907/2006.

The mixture does not contain any PBT substance (PBT = persistent, bioaccumulative, toxic) or is not included under XIII of the regulation (EC) 1907/2006.

# **SECTION 3: Composition/information on ingredients**

Formulation: Emulsion in water

For the text of the R-phrases / H-phrases and classification codes (GHS/CLP), see Section 16. The substances named in this section are given with their actual, appropriate classification!

For substances that are listed in appendix VI, table 3.1/3.2 of the regulation (EC) no. 1272/2008 (CLP regulation) this means that all notes that may be given here for the named classification have been taken into account.

Page 4 of 21 Safety data sheet according to Regulation (EC) No 1907/2006, Annex II Revised on / Version: 24.10.2013 / 0001 Replaces revision of / Version: 24.10.2013 / 0001 Valid from: 24.10.2013 PDF print date: 09.12.2014 Mavrik

# **SECTION 4: First aid measures**

# 4.1 Description of first aid measures

### Inhalation

(GB)

Remove person from danger area.

Supply person with fresh air and consult doctor according to symptoms.

#### Skin contact

Remove polluted, soaked clothing immediately, wash thoroughly with plenty of water and soap, in case of irritation of the skin (flare), consult a doctor.

#### Eye contact

Remove contact lenses.

Wash thoroughly for several minutes using copious water. Seek medical help if necessary.

#### Ingestion

Rinse the mouth thoroughly with water.

Give copious water to drink - consult doctor immediately.

### 4.2 Most important symptoms and effects, both acute and delayed

If applicable delayed symptoms and effects can be found in section 11 and the absorption route in section 4.1. In certain cases, the symptoms of poisoning may only appear after an extended period / after several hours.

# 4.3 Indication of any immediate medical attention and special treatment needed

n.c.

# SECTION 5: Firefighting measures

# 5.1 Extinguishing media

Suitable extinguishing media

Water jet spray/foam/CO2/dry extinguisher

#### Unsuitable extinguishing media

High volume water jet

## 5.2 Special hazards arising from the substance or mixture

In case of fire the following can develop: Oxides of carbon

Oxides of nitrogen Hydrogen chloride Toxic gases

## 5.3 Advice for firefighters

In case of fire and/or explosion do not breathe fumes. Protective respirator with independent air supply. According to size of fire Full protection, if necessary Dispose of contaminated extinction water according to official regulations.

# **SECTION 6: Accidental release measures**

#### Page 5 of 21

(GB)

Safety data sheet according to Regulation (EC) No 1907/2006, Annex II Revised on / Version: 24.10.2013 / 0001 Replaces revision of / Version: 24.10.2013 / 0001 Valid from: 24.10.2013 PDF print date: 09.12.2014 Mavrik

## 6.1 Personal precautions, protective equipment and emergency procedures

Ensure sufficient supply of air. Avoid inhalation, and contact with eyes or skin. If applicable, caution - risk of slipping

#### 6.2 Environmental precautions

If leakage occurs, dam up.

Resolve leaks if this possible without risk.

Prevent surface and ground-water infiltration, as well as ground penetration.

Prevent from entering drainage system.

If accidental entry into drainage system occurs, inform responsible authorities.

#### 6.3 Methods and material for containment and cleaning up

Soak up with absorbent material (e.g. universal binding agent, sand, diatomaceous earth) and dispose of according to Section 13. Fill the absorbed material into lockable containers.

Clean soiled bottles immediately.

#### 6.4 Reference to other sections

For personal protective equipment see Section 8 and for disposal instructions see Section 13.

#### SECTION 7: Handling and storage

In addition to information given in this section, relevant information can also be found in section 8 and 6.1.

### 7.1 Precautions for safe handling

#### 7.1.1 General recommendations

Ensure good ventilation.

Avoid aerosol formation. Avoid contact with eyes or skin. Eating, drinking, smoking, as well as food-storage, is prohibited in work-room. Separate storage of protective clothing. Observe directions on label and instructions for use. Use working methods according to operating instructions.

#### 7.1.2 Notes on general hygiene measures at the workplace

General hygiene measures for the handling of chemicals are applicable.

Wash hands before breaks and at end of work.

Keep away from food, drink and animal feedingstuffs.

Remove contaminated clothing and protective equipment before entering areas in which food is consumed.

#### 7.2 Conditions for safe storage, including any incompatibilities

Keep out of access to unauthorised individuals.

Observe regulations for keeping separated.

Store product closed and only in original packing. Not to be stored in gangways or stair wells.

Under all circumstances prevent penetration into the soil. Store at room temperature.

Protect from direct sunlight and warming.

#### 7.3 Specific end use(s)

No information available at present.

# 8.2 Exposure controls8.2.1 Appropriate engineering controls

Ensure good ventilation. This can be achieved by local suction or general air extraction. If this is insufficient to maintain the concentration under the WEL or AGW values, suitable breathing protection should be worn. Applies only if maximum permissible exposure values are listed here.

## 8.2.2 Individual protection measures, such as personal protective equipment

General hygiene measures for the handling of chemicals are applicable.

Wash hands before breaks and at end of work.

Keep away from food, drink and animal feedingstuffs.

Remove contaminated clothing and protective equipment before entering areas in which food is consumed.

Eye/face protection: Tight fitting protective goggles with side protection (EN 166).

Skin protection - Hand protection: Universal protective gloves (plant protection) Minimum layer thickness in mm: 0,5

Page 9 of 21 Safety data sheet according to Regulation (EC) No 1907/2006, Annex II Revised on / Version: 24.10.2013 / 0001 Replaces revision of / Version: 24.10.2013 / 0001 Valid from: 24.10.2013 PDF print date: 09.12.2014 Mavrik

Permeation time (penetration time) in minutes:

>= 120

(GB)

The breakthrough times determined in accordance with EN 374 Part 3 were not obtained under practical conditions. The recommended maximum wearing time is 50% of breakthrough time. Protective hand cream recommended.

Skin protection - Other: Protective working garments (e.g. safety shoes EN ISO 20345, long-sleeved protective working garments)

Respiratory protection: If OES or MEL is exceeded. Gas mask filter A (EN 14387), code colour brown Observe wearing time limitations for respiratory protection equipment.

Thermal hazards: Not applicable

Additional information on hand protection - No tests have been performed.

In the case of mixtures, the selection has been made according to the knowledge available and the information about the contents. Selection of materials derived from glove manufacturer's indications.

Final selection of glove material must be made taking the breakthrough times, permeation rates and degradation into account. Selection of a suitable glove depends not only on the material but also on other quality characteristics and varies from manufacturer to manufacturer.

In the case of mixtures, the resistance of glove materials cannot be predicted and must therefore be tested before use. The exact breakthrough time of the glove material can be requested from the protective glove manufacturer and must be observed.

#### 8.2.3 Environmental exposure controls

No information available at present.

## **SECTION 9: Physical and chemical properties**

## 9.1 Information on basic physical and chemical properties

Physical state:	Liquid
Colour:	Grey, White
Odour:	Slightly
Odour threshold:	Not determined
pH-value:	5,2 - 5,4 (1 %, CIPAC MT 75.2)
Melting point/freezing point:	Not determined
Initial boiling point and boiling range:	~95 °C
Flash point:	>95 °C (DIN 51758 (Pensky-Martens, closed cup))
Evaporation rate:	Not determined
Flammability (solid, gas):	Not determined
Lower explosive limit:	n.a.
Upper explosive limit:	n.a.
Vapour pressure:	0,00009 μPa (20°C, tau-fluvalinate, (calc) )
Vapour density (air = 1):	Not determined
Density:	1,088 g/ml (Regulation (EC) 440/2008 A.3. (RELATIVE
	DENSITY))

Page 10 of 21 Safety data sheet according to Regulation (EC) No 1907/2006, Annex II Revised on / Version: 24.10.2013 / 0001 Replaces revision of / Version: 24.10.2013 / 0001 Valid from: 24.10.2013 PDF print date: 09.12.2014 Mavrik

# **SECTION 10: Stability and reactivity**

	10.1 Reactivity
	Not to be expected
	•
	10.2 Chemical stability
	Stable with proper storage and handling.
	10.3 Possibility of hazardous reactions
	No dangerous reactions are known.
	10.4 Conditions to avoid
	See also section 7.
	Heating
	10.5 Incompatible materials
	See also section 7.
	Avoid contact with other chemicals.
	Avoid contact with strong oxidizing agents.
	10.6 Hazardous decomposition products
	See also section 5.2
	No decomposition when used as directed.

# **SECTION 13: Disposal considerations**

## 13.1 Waste treatment methods

## For the substance / mixture / residual amounts

EC disposal code no .:

The waste codes are recommendations based on the scheduled use of this product. Owing to the user's specific conditions for use and disposal, other waste codes may be allocated under certain circumstances. (2001/118/EC, 2001/119/EC, 2001/573/EC) 02 01 08 agrochemical waste containing dangerous substances 07 04 01 aqueous washing liquids and mother liquors 20 01 19 pesticides Recommendation: Pay attention to local and national official regulations E.g. suitable incineration plant.

E.g. dispose at suitable refuse site.

## For contaminated packing material

Pay attention to local and national official regulations

Empty container completely.

Dispose of packaging that cannot be cleaned in the same manner as the substance.

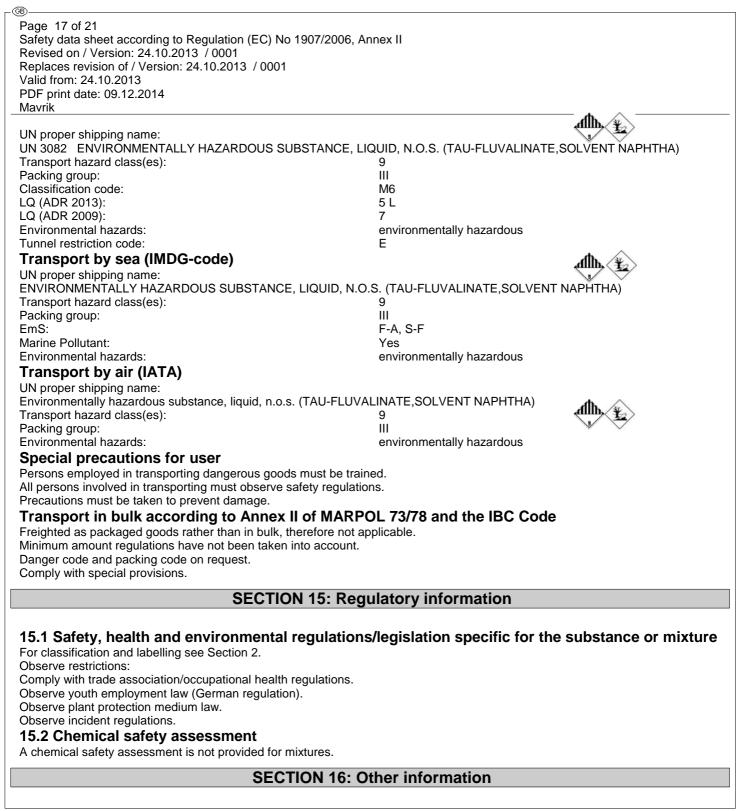

# **SECTION 14: Transport information**

# **General statements** UN number:

3082

Transport by road/by rail (ADR/RID)
