## **SECTION 2: Hazards identification**

```
2.1. Classification of the substance or mixture
```

Classification according to Regulation (EC) No. 1272/2008 [CLP]

Skin Sens. 1

H317

Full text of H-phrases: see section 16

#### Classification according to Directive 67/548/EEC or 1999/45/EC

#### R43

R52/53 Full text of R-phrases: see section 16

Adverse physicochemical, human health and environmental effects

No additional information available

Safety Data Sheet according to Regulation (EC) No. 453/2010

2.2.	Label elements
An - An -	Euser ciciliento

Labelling according to Directive 67/548/EEC or 1999/45/EC		
Hazard symbols	: Xi - Irritant	
Hazardous ingredients	: Propamocarb HCI, cymoxanil (ISO), 2-cyano-N-[(ethylamino)carbonyl]-2- (methoxyimino)acetamide	
R-phrases	<ul> <li>R43 - May cause sensitisation by skin contact R52/53 - Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment</li> </ul>	
S-phrases	<ul> <li>S2 - Keep out of the reach of children</li> <li>S13 - Keep away from food, drink and animal feedingstuffs</li> <li>S20/21 - When using do not eat, drink or smoke</li> <li>S23 - Do not breathe gas/fumes/vapour/spray (appropriate wording to be specified by the manufacturer)</li> <li>S24 - Avoid contact with skin</li> <li>S36/37 - Wear suitable protective clothing and gloves</li> <li>S51 - Use only in well-ventilated areas</li> </ul>	
PPP safety precautions	: SP 1 - SP1- Do not contaminate water with the product or its container (Do not clean application equipment near surface water/Avoid contamination via drains from farmyards and roads)	
2.3. Other hazards		
No established information evaluates		

No additional information available

## SECTION 3: Composition/information on ingredients

#### 3.1. Substance

Not applicable

```
Mixture
3.2.
```

Name	Product identifier	%	Classification according to Directive 67/548/EEC
Propamocarb HCI	(CAS No)25606-41-1 (EC no)247-125-9	38 - 41,1	R43
cymoxanil (ISO), 2-cyano-N-[(ethylamino)carbonyl]-2- (methoxyimino)acetamide	(CAS No)57966-95-7 (EC no)261-043-0 (EC index no)616-035-00-5	4 - 5	Xn; R22 R43 N; R50/53

SECTION 4: First aid measures	
4.1. Description of first aid measures	
First-aid measures general	: If medical advice is needed, have product container or label at hand.
First-aid measures after inhalation	<ul> <li>IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing In case of breathing difficulties administer oxygen. In case of irregular breathing or respiratory arrest provide artificial respiration. In all cases of doubt, or when symptoms persist, seek medical advice.</li> </ul>
First-aid measures after skin contact	: After contact with skin, take off immediately all contaminated clothing, and wash immediately with plenty of water and soap. If skin irritation occurs: Get medical advice/attention.
First-aid measures after eye contact	: Rinse immediately carefully and thoroughly with eye-bath or water. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
First-aid measures after ingestion	: If swallowed, rinse mouth with water (only if the person is conscious). Do not induce vomiting. Immediately get medical attention.
4.2. Most important symptoms and e	ffects, both acute and delayed
No additional information available	

Safety Data Sheet according to Regulation (EC) No. 453/2010

Treat symptomatically.         SECTION 5: Firefighting media         5.1.       Extinguishing media         Suitable extinguishing media       : Foam. Dry extinguishing powder. Carbon dioxide (CO2). Water fog.         Unsuitable extinguishing media       : High power water jet.         5.2.       Special hazards arising from the substance or mixture         Fire hazard       : Non-flammable.         5.3.       Advice for firefighters         Precautionary measures fire       : No naked lights. No smoking.         Firefighting instructions       : Evacuate and limit access. Use water spray jet to protect personnel and to cool endang containers.         Protection during firefighting       : Wear full chemical protective clothing. If technical exhaust or ventilation measures are i possible or insufficient, respiratory protection must be wom.         Other information       : Collect contaminated fire extinguishing water separately. Do not allow entering drains or surface water.         SECTION 6: Accidental release measures       : When leaks or spills occur, only properly protected personnel should remain in the area         6:1.       Personal precautions, protective equipment       : Wear suitable protective clothing, gloves and eye or face protection. In case of insufficiton, wear suitable respiratory equipment.         Emergency procedures       : Evacuate area. Provide adequate ventilation to minimize dust and/or vapour concentrat Call in an expert. Eliminate every possible source of ignition. <th>not or a. ent</th>	not or a. ent
5.1.       Extinguishing media       : Foam. Dry extinguishing powder. Carbon dioxide (CO2). Water fog.         Suitable extinguishing media       : High power water jet.         5.2.       Special hazards arising from the substance or mixture         Fire hazard       : Non-flammable.         5.3.       Advice for firefighters         Precautionary measures fire       : No naked lights. No smoking.         Firefighting instructions       : Evacuate and limit access. Use water spray jet to protect personnel and to cool endarg containers.         Protection during firefighting       : Wear full chemical protective clothing. If technical exhaust or ventilation measures are in possible or insufficient, respiratory protection must be worn.         Other information       : Collect contaminated fire extinguishing water separately. Do not allow entering drains or surface water.         SECTION 6: Accidental release measures       : When leaks or spills occur, only properly protected personnel should remain in the area         6.1.       For non-emergency personnel         Protective equipment       : Wear suitable respiratory equipment.         6.1.1. For non-emergency responders         Protective equipment       : Wear a self-contained breathing apparatus and chemical protective clothing.         6.1.2. For emergency responders         Protective equipment       : Wear a self-contained breathing apparatus and chemical protective clothing.         <	not or a. ent
Suitable extinguishing media       : Foam. Dry extinguishing powder. Carbon dioxide (CO2). Water fog.         Unsuitable extinguishing media       : High power water jet.         5.2.       Special hazards arising from the substance or mixture         Fire hazard       : Non-flammable.         5.3.       Advice for firefighters         Procautionary measures fire       : No naked lights. No smoking.         Firefighting instructions       : Evacuate and limit access. Use water spray jet to protect personnel and to cool endarg containers.         Other information       : Collect contaminated fire extinguishing water separately. Do not allow entering drains or surface water.         SECTION 6: Accidental release measures       : When leaks or spills occur, only properly protected personnel should remain in the area for the suitable respiratory quipment.         Callect we quipment       : Wear suitable protective clothing, gloves and eye or face protection. In case of insufficient ventilation, wear suitable respiratory equipment.         Energency procedures       : Evacuate area. Provide adequate ventilation to minimize dust and/or vapour concentral call in an expert. Eliminate every possible source of ignition.         6.1.       For emergency responders         Protective equipment       : Wear a self-contained breathing apparatus and chemical protective clothing.         6.1.1.       For emergency responders         Protective equipment       : Wear a self-contained breathing apparatus an	not or a. ent
Unsuitable extinguishing media : High power water jet.  5.2. Special hazards arising from the substance or mixture Fire hazard : Non-flammable. 5.3. Advice for firefighters Precautionary measures fire : No naked lights. No smoking. Firefighting instructions : Evacuate and limit access. Use water spray jet to protect personnel and to cool endang containers.  Protection during firefighting : Uvear full chemical protective clothing. If technical exhaust or ventilation measures are i possible or insufficient, respiratory protection must be worn.  Other information : Collect contaminated fire extinguishing water separately. Do not allow entering drains o surface water.  SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures 6.1.1. For non-emergency personnel Protective equipment : Wear suitable protective clothing, gloves and eye or face protection. In case of insuffici ventilation, wear suitable protective equipment.  Emergency procedures : Evacuate area. Provide adequate ventilation to minimize dust and/or vapour concentral Call in an expert. Eliminate every possible source of ignition.  6.1.2. For emergency responders Protective equipment : Wear a self-contained breathing apparatus and chemical protective clothing.  6.2. Environmental precautions Do not empty into drains, dispose of this material and its container at hazardous or special waste collection point. Notify authorities if produc sewers or public waters.  6.3. Methods and material for containment and cleaning up For containment : Prevent spreading in sewers. Impound and recover large spill by mixing it with inert gra solids.  6.4. Reference to other sections	not or a. ent
5.2.       Special hazards arising from the substance or mixture         Fire hazard       : Non-flammable.         5.3.       Advice for firefighters         Precautionary measures fire       : No naked lights. No smoking.         Firefighting instructions       : Evacuate and limit access. Use water spray jet to protect personnel and to cool endang containers.         Protection during firefighting       : Wear full chemical protective clothing. If technical exhaust or ventilation measures are in possible or insufficient, respiratory protection must be worn.         Other information       : Collect contaminated fire extinguishing water separately. Do not allow entering drains o surface water.         SECTION 6: Accidental release measures       : When leaks or spills occur, only properly protected personnel should remain in the area         6.1.1.       For non-emergency personnel         Protective equipment       : Wear suitable protective clothing, gloves and eye or face protection. In case of insuffici ventilation, wear suitable respiratory equipment.         Energency procedures       : Evacuate area. Provide adequate ventilation to minimize dust and/or vapour concentral Call in an expert. Eliminate every possible source of ignition.         6.1.2.       For emergency responders         Protective equipment       : Wear a self-contained breathing apparatus and chemical protective clothing.         6.2.       Environmental precautions         6.3.       Methods and material for contai	not or a. ent
Fire hazard       : Non-flammable.         5.3. Advice for firefighters       :         Precautionary measures fire       : No naked lights. No smoking.         Firefighting instructions       : Evacuate and limit access. Use water spray jet to protect personnel and to cool endang containers.         Protection during firefighting       :: Wear full chemical protective clothing. If technical exhaust or ventilation measures are possible or insufficient, respiratory protection must be worn.         Other information       :: Collect containminated fire extinguishing water separately. Do not allow entering drains or surface water.         SECTION 6: Accidental release measures       :: When leaks or spills occur, only properly protected personnel should remain in the area for non-emergency personnel         Protective equipment       :: Wear suitable protective clothing, gloves and eye or face protection. In case of insufficient and example respiratory equipment.         Etnergency procedures       :: Evacuate area. Provide adequate ventilation to minimize dust and/or vapour concentral Call in an expert. Eliminate every possible source of ignition.         6.1.       For emergency responders         Protective equipment       :: Wear a self-contained breathing apparatus and chemical protective clothing.         6.2.       Environmental precautions         6.3.       Methods and material for containement and cleaning up         For containment       : Prevent spreading in sewers. Impound and recover large spill by mixing it with	not or a. ent
5.3. Advice for firefighters         Precautionary measures fire       : No naked lights. No smoking.         Firefighting instructions       : Evacuate and limit access. Use water spray jet to protect personnel and to cool endarg containers.         Protection during firefighting       : Wear full chemical protective clothing. If technical exhaust or ventilation measures are in possible or insufficient, respiratory protection must be worn.         Other information       : Collect contaminated fire extinguishing water separately. Do not allow entering drains or surface water.         SECTION 6: Accidental release measures       : When leaks or spills occur, only properly protected personnel should remain in the area         6.1. Personal precautions, protective equipment and emergency procedures       : When leaks or spills occur, only properly protected personnel should remain in the area         6.1.1. For non-emergency personnel       : Wear suitable protective clothing, gloves and eye or face protection. In case of insuffici ventilation, wear suitable respiratory equipment.         Emergency procedures       : Evacuate area. Provide adequate ventilation to minimize dust and/or vapour concentral Call in an expert. Eliminate every possible source of ignition.         6.1.2. For emergency responders       : Wear a self-contained breathing apparatus and chemical protective clothing.         6.2. Environmental precautions       : Wear a self-contained breathing apparatus and chemical protective clothing.         6.3. Methods and material for containment and cleaning up       : Collect spills and put it	not or a. ent
Precautionary measures fire       : No naked lights. No smoking.         Firefighting instructions       : Evacuate and limit access. For non-emergency personnel         Protective equipment       : Wear suitable protective clothing, gloves and eye or face protection. In case of insufficient ventilation, wear suitable respiratory equipment.         Emergency procedures       : Evacuate area. Provide adequate ventilation to minimize dust and/or vapour concentrat Call in an expert. Eliminate every possible source of ignition.         6.1.2.       For emergency responders         Protective equipment       : Wear a self-contained breathing apparatus and chemical protective clothing.         6.2.       Environmental precautions         Do not empty into drains, dispose of this material and its container at hazardous or special waste collection point. Notify authorities if produce sewers or public waters.         6.3.       Methods and material for containment and cleaning up         For containment       : Prevent spreading in sewers. Impound and recover large spill by mixing it with inert gras solids.         Methods for cleaning up       : Collect spills and put it into appropriated container.         Other information       : Special danger of slipping by leaking/spilling product.         6.4.       Reference to other sections	ent
General measures       : When leaks or spills occur, only properly protected personnel should remain in the area         6.1.1. For non-emergency personnel       : Wear suitable protective clothing, gloves and eye or face protection. In case of insufficient ventilation, wear suitable respiratory equipment.         Emergency procedures       : Evacuate area. Provide adequate ventilation to minimize dust and/or vapour concentration.         6.1.2. SECTION 7: Handling and storage	
7.1. Precautions for safe handling	
Precautions for safe handling : Handle in accordance with good industrial hygiene and safety procedures. Keep away heat/sparks/open flames/hot surfaces No smoking. Do not allow to enter into surface drains.	
Handling temperature : at room temperature	
Hygiene measures       : Do no eat, drink or smoke when using this product. Take off contaminated clothing and before reuse. Wash hands and other exposed areas with mild soap and water before e drinking or smoking and when leaving work.	
7.2. Conditions for safe storage, including any incompatibilities	
Technical measures : Ground well. Use explosion-proof machinery, apparatus, ventilation facilities, tools etc.	
Storage conditions : Protect against direct sunlight.	
Incompatible products : Strong acid. Strong bases. Oxidizing agents, strong.	
Maximum storage period : 2 year(s)	
Storage temperature : Protect from freezing	
Storage area       : Keep container tightly closed in a cool, well-ventilated place. Provide for retaining conta         eg. floor pan without outflow.	
Packaging materials : Keep only in the original container. Keep locked up.	iners,

Safety Data Sheet

according to Regulation (EC) No. 453/2010

## SECTION 8: Exposure controls/personal protection

## 8.1. Control parameters

No additional information available

8.2.	Exposure co	ntrols

Personal protective equipment

: Gloves. Gas mask. Safety glasses.

Hand protection

	purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves.
Eye protection	: Face shield. Chemical goggles or safety glasses.
Skin and body protection	: Skin protection appropriate to the conditions of use should be provided.
Respiratory protection	: If technical exhaust or ventilation measures are not possible or insufficient, respiratory protection must be worn.
Environmental exposure controls	: Notify authorities if product enters sewers or public waters.
Other information	: Emergency eye wash fountains and safety showers should be available in the immediate

: Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure.

: Wear suitable gloves resistant to chemical penetration. NBR (Nitrile rubber). For special

SECTION 9: Physical and chemical	properties
9.1. Information on basic physical and o	chemical properties
Physical state	: Liquid
Appearance	: viscous. opaque.
Colour	: grey.
Odour	: characteristic.
Odour threshold	: No data available
рН	: 2,27
Relative evaporation rate (butylacetate=1)	: No data available
Melting point	: No data available
Freezing point	: No data available
Boiling point	: 103 °C
Flash point	: > 103 °C No flash point - measurement carried out until boiling temperature.
Self ignition temperature	: No data available
Decomposition temperature	: > 430 °C
Flammability (solid, gas)	: No data available
Vapour pressure	: No data available
Relative vapour density at 20 °C	: No data available
Relative density	: No data available
Density	: 1,085 g/ml (20°C)
Solubility	: No data available
Log Pow	: No data available
Viscosity, kinematic	: No data available
Viscosity, dynamic	: 900 cP
Explosive properties	: not explosive.
Oxidising properties	: not oxidizing.
Explosive limits	: No data available

## 9.2. Other information

No additional information available

SECTIC	ON 10: Stability and reactivity
10.1.	Reactivity

When exposed to heat, may decompose liberating hazardous gases.

## 10.2. Chemical stability

Stable under normal conditions.

Safety Data Sheet according to Regulation (EC) No. 453/2010

10.3. Possibility of hazardous reactions		
None under normal conditions. Refer to section 10.1 on Reactivity.		
10.4. Conditions to avoid		
	heat/sparks/open flames/hot surfaces No smoking.	
10.5. Incompatible materials		
Strong acid. Strong bases. Strong oxidizing age	nts.	
	s fumes. Carbon dioxide (CO2). Carbon monoxide. Nitrogen oxides (NOx).	
SECTION 11: Toxicological informat		
11.1. Information on toxicological effects		
Acute toxicity	: Not classified	
PROXANIL		
LD50 oral rat	> 2000 mg/kg	
LD50 dermal rat	> 4000 mg/kg	
LC50 inhalation rat (mg/l)	> 5 mg/l/4h	
cymoxanil (ISO), 2-cyano-N-[(ethylamino)ca	rbonyl]-2-(methoxyimino)acetamide (57966-95-7)	
LD50 oral rat	960 mg/kg	
LD50 dermal rat	> 2000 mg/kg	
LC50 inhalation rat (mg/l)	> 5,6 mg/l/4h	
Propamocarb HCI (25606-41-1)		
LD50 oral rat	> 2000 mg/kg	
LD50 dermal rat	> 2000 mg/kg	
LC50 inhalation rat (mg/l)	> 5 mg/l/4h	
Irritation	: Not classified	
	pH: 2,27	
Corrosivity	: Not classified	
	pH: 2,27	
Sensitisation	: May cause sensitisation by skin contact.	
Repeated dose toxicity	: Not classified	
Carcinogenicity	: Not classified	
Mutagenicity	: Not classified	
Toxicity for reproduction	: Not classified	

SECTION 12: Ecological information				
12.1. Toxicity				
PROXANIL				
LC50 fishes 1	1000 mg/l (96h Cyprinus carpio)			
EC50 Daphnia 1	590 mg/l (48h Daphnia magna)			
ErC50 (algae)	190 mg/I (72h Selenastrum capricornutum)			
cymoxanil (ISO), 2-cyano-N-[(ethyl	amino)carbonyl]-2-(methoxyimino)acetamide (57966-95-7)			
LC50 fishes 1	61 mg/l (96h Oncorhynchus mykiss)			
EC50 Daphnia 1	27 mg/l (48h Daphnia magna)			
LC50 fish 2	29 mg/l (96h Lepomis macrochirus)			
ErC50 (algae)	0,122 mg/l (Anabaena flos-aquae)			
Propamocarb HCI (25606-41-1)				
LC50 fishes 1	> 99 mg/l (96h Oncorhynchus mykiss)			
EC50 Daphnia 1	> 100 mg/l (48h Daphnia magna)			
LC50 fish 2	> 92 (96h Lepomis macrochirus)			
ErC50 (algae)	> 85 mg/l (72h Pseudokirchneriella subcapitata)			
ErC50 (other aquatic plants)	> 18 mg/l (14d Lemna Gibba)			
NOEC (chronic)	> 6,3 mg/l (32d Lepomis macrochirus)			

#### 12.2. Persistence and degradability

cymoxanil (ISO), 2-cyano-N-[(ethylamino)carbonyl]-2-(methoxyimino)acetamide (57966-95-7)				
Persistence and degradability	Not readily biodegradable.			
11/12/2013		5/7		

Safety Data Sheet according to Regulation (EC) No. 453/2010

Propamocarb HCI (25606-41-1)	
Persistence and degradability	Readily biodegradable.
12.3. Bioaccumulative potential	Troubly blougraduate.
•	
	no)carbonyl]-2-(methoxyimino)acetamide (57966-95-7)
Log Pow	0,67 (pH=7; 20°C)
Propamocarb HCI (25606-41-1)	
BCF fish 1	3,2 - 4,7 mg/g
Log Pow Bioaccumulative potential	-1,36 There is no bioaccumulation.
•	
12.4. Mobility in soil	
PROXANIL Surface tension	28,4 mN/m (EEC A5)
	io)carbonyl]-2-(methoxyimino)acetamide (57966-95-7)
Surface tension	68,7 mN/m (19°C)
12.5. Results of PBT and vPvB asses	isment
No additional information available	
12.6. Other adverse effects	
No additional information available	
SECTION 13: Disposal considera	ations
13.1. Waste treatment methods	
Regional legislation (waste)	: Disposal must be done according to official regulations.
Waste treatment methods	: Dispose of this material and its container to hazardous or special waste collection point.
Additional information	: Do not contaminate water with the product or its container (Do not clean application equipment
	near surface water/Avoid contamination via drains from farmyards and roads). Notify authorities if product enters sewers or public waters.
SECTION 14: Transport informat	ion
In accordance with ADR / RID / IMDG / IAT.	A
14.1. UN number	
No dangerous good in sense of transport re 14.2. UN proper shipping name	guiations
14.2.UN proper shipping nameNot applicable	
14.3. Transport hazard class(es)	
Not applicable	
14.4. Packing group	
Not applicable	
14.5. Environmental hazards	
Other information	: No supplementary information available.
14.6. Special precautions for user	
14.6.1. Overland transport	
Transport regulations (ADR)	: Not subject
14.6.2. Transport by sea	
Transport regulations (IMDG)	: Not subject
	·
44.00	
14.6.3. Air transport	Not subject
<b>14.6.3.</b> Air transport Transport regulations (IATA)	: Not subject
	: Not subject
Transport regulations (IATA)	: Not subject
Transport regulations (IATA) 14.6.4. Inland waterway transport No additional information available	: Not subject Annex II of MARPOL 73/78 and the IBC Code

Not applicable

Safety Data Sheet

according to Regulation (EC) No. 453/2010

## SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

## 15.1.1. EU-Regulations

No REACH Annex XVII restrictions Contains no REACH candidate substance

## 15.1.2. National regulations

No additional information available

#### 15.2. Chemical safety assessment

No additional information available

### SECTION 16: Other information

Indication of changes:			
	Supersedes	Modified	
	Indication of changes	Removed	
	Revision date	Modified	

### Full text of R-, H- and EUH-phrases::

Acute Tox. 4 (Oral)	Acute toxicity (oral), Category 4		
Aquatic Acute 1	Hazardous to the aquatic environment — AcuteHazard, Category 1		
Aquatic Chronic 1	Hazardous to the aquatic environment — Chronic Hazard, Category 1		
Skin Sens. 1	Sensitisation — Skin, category 1		
H302	Harmful if swallowed		
H317	May cause an allergic skin reaction		
H400	Very toxic to aquatic life		
H410	Very toxic to aquatic life with long lasting effects		
R22	Harmful if swallowed		
R43	May cause sensitisation by skin contact		
R50/53	Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment		
R52/53	Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment		
N	Dangerous for the environment		
Xn	Harmful		

SDS EU (REACH Annex II)

This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not therefore be construed as guaranteeing any specific property of the product
